HAL 03 The Hoomanist Story

UBAH

NASKAH FINAL

JUDUL

I spent years watching good agencies hire good people - and still get it wrong.

ISI

Strategy. Process. Ideas. All copyable, eventually.

For years I ran people operations inside a digital creative agency. The part I loved was the matching - finding someone who would walk in and feel like they belonged there.

What kept bothering me was how often it didn't hold. Strong portfolio, right skills, gone within the year. Then the same seat opens again, and everybody starts over.

Hoomanist started to fix the part most hiring skips: whether this person fits THIS team, at THIS stage, doing THIS work.

Four years in, that's still the whole job. We're small on purpose, and we only take the searches we can do properly.

PENUTUP

People are the part no one can rip off.

HAL 04 Our Approach

UBAH

NASKAH FINAL

JUDUL

Skill gets someone in the door. Fit, clarity and alignment are what keep them - and keep the work good.

01 FIT

The right person for this team at this stage, rather than the right person for the job description.

02 CLARITY

Everyone knows what good looks like, and how their own work connects to it.

03 ALIGNMENT

One person knows where they're heading - and it's the same direction as the team.

IS HOOMANIST RIGHT FOR YOU?

5-20 people - How the team works still lives in the founder's head. One wrong hire shifts the whole dynamic.

20-50 people - Growing fast and feeling the strain. The founder can't be everywhere, and the systems are overdue.

Any size, in transition - New leadership, a rebrand, a big expansion. The people side needs a steady hand through it.

There's no such thing as too early. The sooner we talk, the more options you have.

HAL 05 The Cost of Getting It Wrong

TULIS ULANG

NASKAH FINAL

JUDUL

A mismatch shows up on the P&L long before it shows up in an exit interview.

46%

of new hires fail within their first 18 months.

Leadership IQ, across 20,000+ hires at 312 organisations.

89%

of those failures come down to fit and attitude, not technical skill.

Coachability, motivation and temperament - the things a portfolio can't show you.

30%

of first-year salary is the minimum cost of replacing one of them.

And that's before the time your team spends covering the gap.

OUR OWN NUMBERS

Our first cohort, 2023: seven people. Four years on, three are still in those roles - and two of the three now lead their teams.

That's the group we can track the longest. The 2024 and 2025 placements aren't old enough to tell you anything yet.

We'd rather be judged on that than on anything else in the deck.

HAL 06 Why Hoomanist

UBAH JUDUL

NASKAH FINAL

JUDUL

Three things that make our own job harder.

01 HUMAN FIRST

Every recruiter says they look past the CV. Here's what that means in practice: we ask how someone wants to be managed, what kind of feedback lands and what kind shuts them down, and when they last felt good at work.

Then we check those answers against how your team actually runs - not how the job description says it runs.

02 CREATIVE NATIVE

We've sat through the feedback rounds and the messy middle. We know what good work looks like from the inside.

Which is why Tito sits in on every portfolio review. A generalist recruiter can't tell a portfolio that's been art-directed well from work that's genuinely strong. Someone who lives in this world can.

03 PURPOSEFUL

Sometimes the honest answer is: don't hire yet.

If the role isn't defined, or the team can't absorb someone this quarter, we'll say so - and that costs us the fee. We'd rather lose one search than put someone into a seat that was never ready.

YANG BERUBAH

LAMA Three things we do differently.

Yang lama dipakai semua agensi. Yang baru langsung ngasih tahu isinya soal apa, dan kebaca santai tanpa jadi becanda.

02 PEOPLE GROWTH

Fifteen-plus roles. Three weeks. One full team, built from nothing.

ISI

Sosplan brought us in to staff By.U's urgent hiring push: fifteen-plus creative roles, filled fast, with no willingness to trade fit for speed.

Dua hal yang perlu kamu putuskan

Tahun di situs.

Di situs ada kalimat "Freelance and in-house, for agencies and brands since 2023", padahal di tempat lain situsnya bilang Hoomanist jalan sejak 2022. Kalau itu soal pengalaman kamu sebelum Hoomanist, harusnya SEBELUM 2022, bukan sesudah. Dua tahun berbeda untuk dua hal berbeda, atau salah satunya keliru?

Harga di situs lawan harga di dek.

Situs nulis "Contact us for pricing", dek nyebut angka. Itu wajar - dek dikirim ke calon klien, situs dibaca umum. Kalau ada yang nanya kenapa beda, jawabannya: dek dikirim setelah ngobrol.
